

## MEDIA CONSOLIDATION THREATENS AMERICAN DEMOCRACY!!!

The media ownership consolidation proposals have not undergone any significant public debate. Since media control is an issue central to the proper functioning of our democracy in America, I insist that you delay the vote date until the public has had time to debate, digest, and comment on the proposed rules changes. I feel that the rules being proposed threaten our very way of life in the USA, and I am furious that they're so close to being passed without the aforementioned public involvement!! Limited variety of opinion and information on important news limits the choices we make as Americans with policies and elected officials. Don't subvert our democratic process!!!!!
